DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 13, 26 and 38 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kraan in view of DE 3602665.

There is disclosed in Kraan a coffee machine for dispensing coffee to a coffee receptacle, comprising: a brewing chamber 4 having an outlet 22 for coffee; an impact surface 28 located downstream from the outlet and at a fixed distance from the outlet; and a spout 26 for discharging coffee from the machine, the spout having a discharge end.

There is disclosed in DE 3602665 a height adjustable spout for dispensing coffee from a coffee machine to coffee receptacles of varied heights.

It would have been obvious to one skilled in the art to substitute the spout arrangement of Kraan with that taught in DE 3602665, in order to allow for the use of coffee receptacles of varied heights.

Allowable Subject Matter

Claims 14-25 and 27-37 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
